Professional Overview

Dedicated software developer with 3 years of experience building **scalable, user-centered web applications**. Passionate about leveraging **full-stack expertise** to design and deliver **innovative, efficient, and maintainable software solutions** that enhance user experience and drive business value. Committed to **problem-solving, collaborative development, and continuous improvement** in every project.

Education

Bachelor of Technology, Computer Science Engineering — 2018 – 2022

- GPA: 7.8

Experience

Digital Innovations, Python developer — Kurukshetra, Haryana, Aug 2025- Present

- Developed and optimized high-performance RESTful APIs using **Python, and Django**, enabling scalable backend systems and improving application response times.

Navyalsofteck Solutions Pvt Ltd, Software Engineer — Noida, Uttar Pradesh, Jan 2024 – Aug 2025

- Built and optimized scalable systems using **Python, Django, FastAPI, and ReactJS**, delivering efficient and maintainable solutions.
- Led code reviews, testing, and mentored junior developers to enhance quality and team performance.

Ibest Works Multiple Pvt Ltd, Python Developer — Delhi, Jul 2023 – Dec 2023

- Played a key role in creating dynamic and responsive web pages using **Python, FastAPI, React and Postgres**.
- Developed a service for gradient support across VS and VS add-ins, improving performance with caching and enhancing functionality through front-end API integration.

Namrata Universal, Full Stack Developer — Noida, Uttar Pradesh, Jan 2023 – Jun 2023

- Designed responsive websites using **JavaScript, HTML5, CSS and Bootstrap**.
- Assisted in the development of a real-time analytics dashboard using **Python, Django, MySQL, which supported data-driven decision-making** for clients.

CETPA Infotech Pvt Ltd, Full Stack Web Development — Noida, Uttar Pradesh, Jul 2022 – Dec 2022

- Designed responsive websites using **JavaScript, jQuery, HTML5, CSS and Bootstrap**.
- **Python, Django, MySQL**.

Projects

Navigate

- Developed a ride-sharing and navigation platform, featuring real-time ride booking, driver-passenger matching, and route tracking across **mobile apps (Flutter)**, **web applications (React)**, and **backend APIs (Python, Django)**, with **MongoDB** as the database for flexible data storage.

StartUpKhata StartUpKhata

- Architected and developed a full-stack accounting platform using **Python, FastAPI, React, HTML5, CSS, and PostgreSQL**, delivering secure user authentication (JWT, React Context API) and seamless, real-time data interactions (Axios, React hooks).
- Engineered scalable backend services with **FastAPI** and optimized database workflows in **PostgreSQL**, leveraging **Git/GitHub** for version control and collaborative development, resulting in a robust and maintainable system.

E-Rasoiya

- Developed a comprehensive billing and outlet management platform for restaurants and hotels using **FastAPI, React, and PostgreSQL**, including seat management, receipts, and online order processing.
- Integrated secure online payments via **Razorpay** with multiple payment options, enabling seamless online delivery and enhancing transaction efficiency.

Technologies

Languages: Python, JavaScript, HTML5, CSS, and PHP.

Frameworks: Django, FastAPI, RestAPI, and Bootstrap.

Libraries: jQuery, and ReactJS.

Database: : MySQL, Postgres, MongoDB, SQLite, and SQLAlchemy.

Tools: Git/GitHub, VS Code, and PyCharm.

Cloud computing platforms: Azure, and AWS.

Positions of Responsibility

Python Developer Digital Innovations

- **Design, develop, and maintain** scalable and efficient software applications.
- **Collaborate** with cross-functional teams to gather requirements and translate them into technical solutions.
- **Lead and mentor** a team of developers, fostering a culture of growth and collaboration.
- **Monitor project progress**, mentor interns, and provide regular updates to management.
